

Data Structures Using Python

“A Simple and Practical Approach”

Dr.Lalit Purohit

Professor

Department of Information Technology

Shri Govindram Seksariya Institute of Technology and Science,Indore

Mr.Deepesh Agarwal

Assistant Professor

Department of Computer Technology and Application

Shri Govindram Seksariya Institute of Technology and Science,Indore

Brief Contents

- 1. Introduction to Data Structures**
- 2. Python Refresher for Data Structures**
- 3. Arrays & Lists in Python**
- 4. Stack**
- 5. Queue**
- 6. Linked List**
- 7. Recursion**
- 8. Trees**
- 9. Heap**
- 10. Hashing**
- 11. Graphs**
- 12. Searching**
- 13. Sorting**
- 14. Complexity Analysis (Big-O Deep Dive)**
- 15. Interview Problems & Solutions**
- 16. Case Studies**
